

The Science Academy (STEM MAG) 2018-19

- Science Academy students will be transported on existing North Hollywood SH Routes.
- Below is a list of all magnet stops for North Hollywood SH
- Science Academy hours are 8:30am – 3:42pm / North Hollywood hours are 8:00am – 3:16pm
- Transported students are allowed to ride for a max of 90 minutes. Due to our 90-minute maximum ride time, **Science Acad. students are eligible to be assigned to the highlighted stops only**
- Students will receive transportation information for the **closest eligible stop** to their home address.
- If one of the non-highlighted stops is a better fit, the students parent or guardian will need to call the Area Bus Supervisor when they receive their mailer and request to have the student switched to the closer stop.
- Parents must be made aware that choosing one of the non-highlighted stops will cause their student to exceed district guidelines and be on the bus for more than 90 minutes. Written consent is required to effectuate this.
